## About Us

RAJ Pharmaceutical is more than just a healthcare provider; we are a beacon of hope and healing in our community.

Raj Pharmaceuticals was established in the year 2020 with a number of four employees as our reputation grew, so did the demand for our services.

Recognizing the opportunity to expand our reach and impact, we made the strategic decision to venture into both retail and wholesale pharmacy operations in 2023.

This transition allowed us to serve a broader customer base, including healthcare institutions and other pharmacies, while maintaining the same level of integrity and commitment that defined our retail operations.

We have steadily grown into a trusted name in the pharmaceutical industry, serving the diverse healthcare needs of individuals across region. Currently we have a number of 35 employees that we are working together to achieve our goals.
